

Video Tape to DVD

Available from: VHS, Video 8, Mini DV (Includes PAL)

Japan Camera foto source records exclusively in SP mode for maximum picture quality. Maximum recording time per DVD is 120 minutes. If the video tape exceeds 120 minutes, recording will extend to an additional DVD(s). Editing is not available as part of this service. When transferring multiple tapes to one DVD, tapes must be numbered.

Titles

Titles can be added at the beginning and/or the end of each tape. Titles can be up to 3 lines with 35 characters per line. They should be clearly printed or typed out with specific instructions for placement.

Custom DVD Cover

Customized DVD and covers are available.

Special Note: a Federal Copyright Law protects commercially marketed videotapes. We are unable to duplicate these types of tapes.

Service	Pricing
Tape to DVD (up to 30 minutes)	\$19.99 each DVD
Tape to DVD (up to 60 minutes)	\$24.99 each DVD
Tape to DVD (up to 120 minutes)	\$29.99 each DVD
Titles	\$5.00 per title/chapter

Additional tapes to DVD \$15.00 each

Additional copies \$12.00 per DVD

Custom DVD disk and Custom DVD case \$20.00 per set

Video File Conversions

Available from: CD (includes PAL), DVD (includes PAL), Hard drive camcorders, memory cards, flash drives

Are you having trouble playing the video you recorded on your digital camera? Even if you burn a DVD most DVD players do not recognize the video files recorded on digital cameras. At Japan Camera foto source, we can convert video files for your TV viewing.

Multiple digital files can be consolidated to one DVD. The number of DVD's required to complete the conversion can vary greatly depending on the amount and type of data. We have the ability to transfer both standard definition and hi-definition video files. When transferring multiple files to one DVD, specific instructions as to placement must be included.

Memory cards from camcorders and hard drive camcorder transfers require the camcorder, AV cord, AC adapter and cradle (if necessary) be left at the store to complete the order. Editing is not available as part of this service.

Video files from digital still cameras, will appear as individual clips on DVD. These files may be combined into one movie clip for an additional charge. Vertical video may be altered also with additional charges.

Titles

Titles can be added at the beginning and/or the end of each tape. Titles can be up to 3 lines with 35 characters per line. They should be clearly printed or typed out with specific instructions for placement.

Film to DVD

Available from: Super 8 or 8mm

A DVD holds up to 120 minutes; approximately 1200 feet. If the production exceeds 120 minutes, additional DVD's will be used as needed and additional charges will apply. Use the guide below to determine an estimated number of feet of film is included in the order. Please note the diagram is not proportional to actual cassette and film size.

If the reels need to be transferred in a particular sequence, clearly number the movie reels accordingly. It is best to write the number sequence directly on the reel. Editing is not available as part of this service.

Music

Customers have a choice submitting their own music selection or using copyright free music supplied by the lab. Customer supplied music is accepted as CD or MP3 files. Lab supplied music is determined by a video specialist and is instrumental only.

Titles

Titles can be added at the beginning, at the end or before each reel. Titles can be up to 3 lines with 35 characters per line. They should be clearly printed or typed out with specific instructions for placement.
